

Activa Edge

- ▶ **Small and flexible grinding/polishing machine**
- ▶ **Oscillating**
- ▶ **Square shape, going into corners**

Activation Edge is a small and versatile machine for wet grinding, scrubbing and polishing floors. The machine has an oscillating pad which provides a very efficient and easy to drive machine. The square shape makes it easy to access in the corners and even on stairs. Activation Edge can be used without chemicals to grind away polish, as a grinding machine. It is also ideal for sanding wood floors. Ability to connect the vacuum cleaner and "dust skirt" during grinding.
